Re: Request for Bid # K07-7068-28  
Develop and Implement Software to Manage and Retrieve Large  
Digital Collections

### AMENDMENT #2

Dear Interested Party:

The Administrative Office of the Courts (AOC) hereby makes the following clarifications/changes to the above referenced Request for Proposal.

The following consists of questions raised by potential bidders on the above referenced solicitation and the AOC's responses.

Q. In # 3 on page 10, "System Requirements," does the Judiciary already have enterprise licenses for the OS, server and database software, or does that software have to be supplied by the vendor?

A. For this solution, the bid should include all licenses necessary to run the system.

Q. In the "Backup" table section on page 14, does the Judiciary already have a backup vendor, or does the vendor on this proposal have to provide backup services? Also, at what level is the backup--a "regular" level or a full-scale disaster recovery, mission-critical backup?

A. The solution should include backup capabilities at JIS, whereby JIS will monitor backup process, including off-site services. If hosted by a provider, vendor will assume all backup responsibilities.

Sincerely,

Karen Hoang  
Procurement Specialist
